Dear Dr. Saldutti:

We have approved your request submitted and received on December 20, 2019, to supplement your Biologics License Application (BLA) under section 351(a) of the Public Health Service Act for Measles, Mumps and Rubella Virus Vaccine Live, manufactured at your West Point, PA facility, to revise the package insert labeling and the patient labeling to comply with the "Physician Labeling Rule" and "Pregnancy and Lactation Labeling Rule."

LABELING

Under 21 CFR 201.57(c)(18), patient labeling must be referenced in section 17 PATIENT COUNSELING INFORMATION. Patient labeling must be available and may either be reprinted immediately following the full prescribing information of the package insert or accompany the prescription product labeling.

We hereby approve the draft package insert labeling and patient labeling submitted in amendments 5 and 6, respectively, dated June 17 and 18, 2020.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, please submit the final content of labeling (21 CFR 601.14) in Structured Product Labeling (SPL) format via the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Information on submitting SPL files using eLIST may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As* at <http://www.fda.gov/downloads/Drugs/GuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible via publicly available labeling repositories.
