

**Technical Project Lead (TPL) Review:
Exemption Request EX0000213 – EX0000214**

EX0000213: Pall Mall Menthol Green Filter	
Length	83 mm
Diameter	7.8 mm
Ventilation	34 %
Characterizing Flavor	Menthol
Product Modifications	Addition/Deletion of tobacco additives: <ul style="list-style-type: none"> • Deletion of a tobacco additive (white tipping paper; (b) (4)) • Addition of a tobacco additive (cork-on-white tipping paper; (b) (4))
EX0000214: Pall Mall Menthol Green Filter 100	
Length	98 mm
Diameter	7.8 mm
Ventilation	44 %
Characterizing Flavor	Menthol
Product Modifications	Addition/Deletion of tobacco additives: <ul style="list-style-type: none"> • Deletion of a tobacco additive (white tipping paper; (b) (4)) • Addition of a tobacco additive (cork-on-white tipping paper; (b) (4))
Common Attributes of Exemption Requests	
Applicant	R.J. Reynolds Tobacco Company
Product Category	Cigarette
Product Sub-Category	Combusted Filtered
Package Quantity	20 Cigarettes
Package Type	Hard Pack
Recommendation	
Issue Exempt order letters.	

Technical Project Lead (TPL):

Matthew J. Walters -S

6. CONCLUSION AND RECOMMENDATION5

1. BACKGROUND

1.1. ORIGINAL TOBACCO PRODUCTS

The applicant submitted the following original tobacco products:

Table 1. Original Tobacco Products

EX0000213: Pall Mall Menthol Green Filter	
Product Name	Pall Mall Light Menthol King Box
Package Type	Hard Pack
Package Quantity	20 Cigarettes
Length	83 mm
Diameter	7.8 mm
Filter Ventilation	34%
Characterizing Flavor	Menthol
EX0000214: Pall Mall Menthol Green Filter 100	
Product Name	Pall Mall Light Menthol 100s Box
Package Type	Hard Pack
Package Quantity	20 Cigarettes
Length	98 mm
Diameter	7.8 mm
Filter Ventilation	44%
Characterizing Flavor	Menthol

The applicant manufactures the original tobacco products and claims that they are grandfathered.

1.2. REGULATORY ACTIVITY RELATED TO THIS MEMO

The applicant submitted the Exemption Requests EX0000213-EX0000214 on March 9, 2018. FDA issued the applicant an Acknowledgement letter for these Exemption Requests on March 14, 2018.

1.3. SCOPE OF MEMO

This memo captures all administrative, compliance, and scientific reviews completed for these Exemption Requests.

1.4. TOBACCO ADDITIVE MODIFICATION

The new tobacco products contain the following modification compared to the corresponding original tobacco products:

- Deletion of a tobacco additive (white tipping paper; (b) (4))
- Addition of a tobacco additive (cork-on-white tipping paper; (b) (4))

2. ADMINISTRATIVE REVIEW

An acceptance review was completed by Barbara Banchemo on March 14, 2018. The review concludes that the Exemption Requests are administratively complete.

3. COMPLIANCE REVIEW

The Office of Compliance and Enforcement (OCE) completed reviews to determine whether the applicant established that the original tobacco products are grandfathered products (i.e., were commercially marketed as of February 15, 2007). The OCE reviews dated April 19, 2018, conclude that the original tobacco products are grandfathered products. Therefore, the original products are eligible for modification under the Exemption Request pathway.¹

4. SCIENTIFIC REVIEW

A scientific review was completed by Changyu Chae on May 1, 2018. The review concludes that the modifications are a minor modification of tobacco additives in accordance with section 905(j)(3)(A)(i) of the FD&C Act. The applicant proposed the deletion of white tipping paper and the addition of cork-on-white tipping paper, which is not expected to have any significant effects on product chemistry or consumer perception as outlined in the May 16, 2017 social science memo. The chemistry review has found this modification to be minor.

5. ENVIRONMENTAL DECISION

A finding of no significant impact (FONSI) was signed by Kimberly Benson, Ph.D. on April 26, 2018. The FONSI was supported by an environmental assessment prepared by FDA on April 26, 2018.

6. CONCLUSION AND RECOMMENDATION

The new tobacco products contain the following modification compared to the corresponding original tobacco products:

- Deletion of a tobacco additive (white tipping paper; (b) (4))
- Addition of a tobacco additive (cork-on-white tipping paper; (b) (4))

I concur with the conclusion of the chemistry review that these modifications are minor modifications involving tobacco additives in accordance with section 905(j)(3)(A)(i) of the FD&C Act. In addition, it is my conclusion and consistent with section 905(j)(3)(A)(ii) of the FD&C Act, SE Reports are not necessary to ensure that permitting the new tobacco products to be marketed would be appropriate for protection of the public health. Although the modification results in different characteristics for the original and new tobacco products, the addition of cork-on-white tipping paper and the deletion of white tipping paper is not expected to have any significant effects on product chemistry or consumer perception. Lastly, FDA finds, based on the information

¹ Any tobacco product that can be sold under the FD&C Act (e.g., legally marketed in the United States) is eligible for modification under the Exemption Request pathway.

contained in the Exemption Requests and CTP's scientific understanding, that an exemption for this modification is otherwise appropriate as required by section 905(j)(3)(a)(iii) of the FD&C Act. Therefore, the new tobacco products should be found exempt from the requirements of substantial equivalence under section 910(a)(3)(A) of the FD&C Act.

The original tobacco products meet statutory requirements because they are legally marketed in the United States. The original products are grandfathered products (i.e., were commercially marketed in the United States as of February 15, 2007).

FDA has examined the environmental effects of finding the new tobacco products exempt and made a finding of no significant impact.

Exempt order letters should be issued for the new tobacco products in EX0000213-EX0000214 as identified on the cover page of this review.
