

IS YOUR ONLINE PHARMACY SAFE?

A close-up photograph of a person wearing a white lab coat. Their right hand is held palm-up, showing a single white, oval-shaped pill. Their left hand is holding a clear glass of water. The background is blurred, suggesting a pharmacy or clinical setting.

BeSafeRx

MAKE SAFER CHOICES WHEN PURCHASING PRESCRIPTION MEDICINE ONLINE

Online pharmacies offer convenience, savings and privacy, but many are unsafe and unlicensed

Choose an online pharmacy that:

Requires a doctor's prescription

Has a physical address in the United States

Has a licensed pharmacist on staff

Is licensed by the state pharmacy board
