CONTACT TRACING WORKFLOW | COVID-19 |
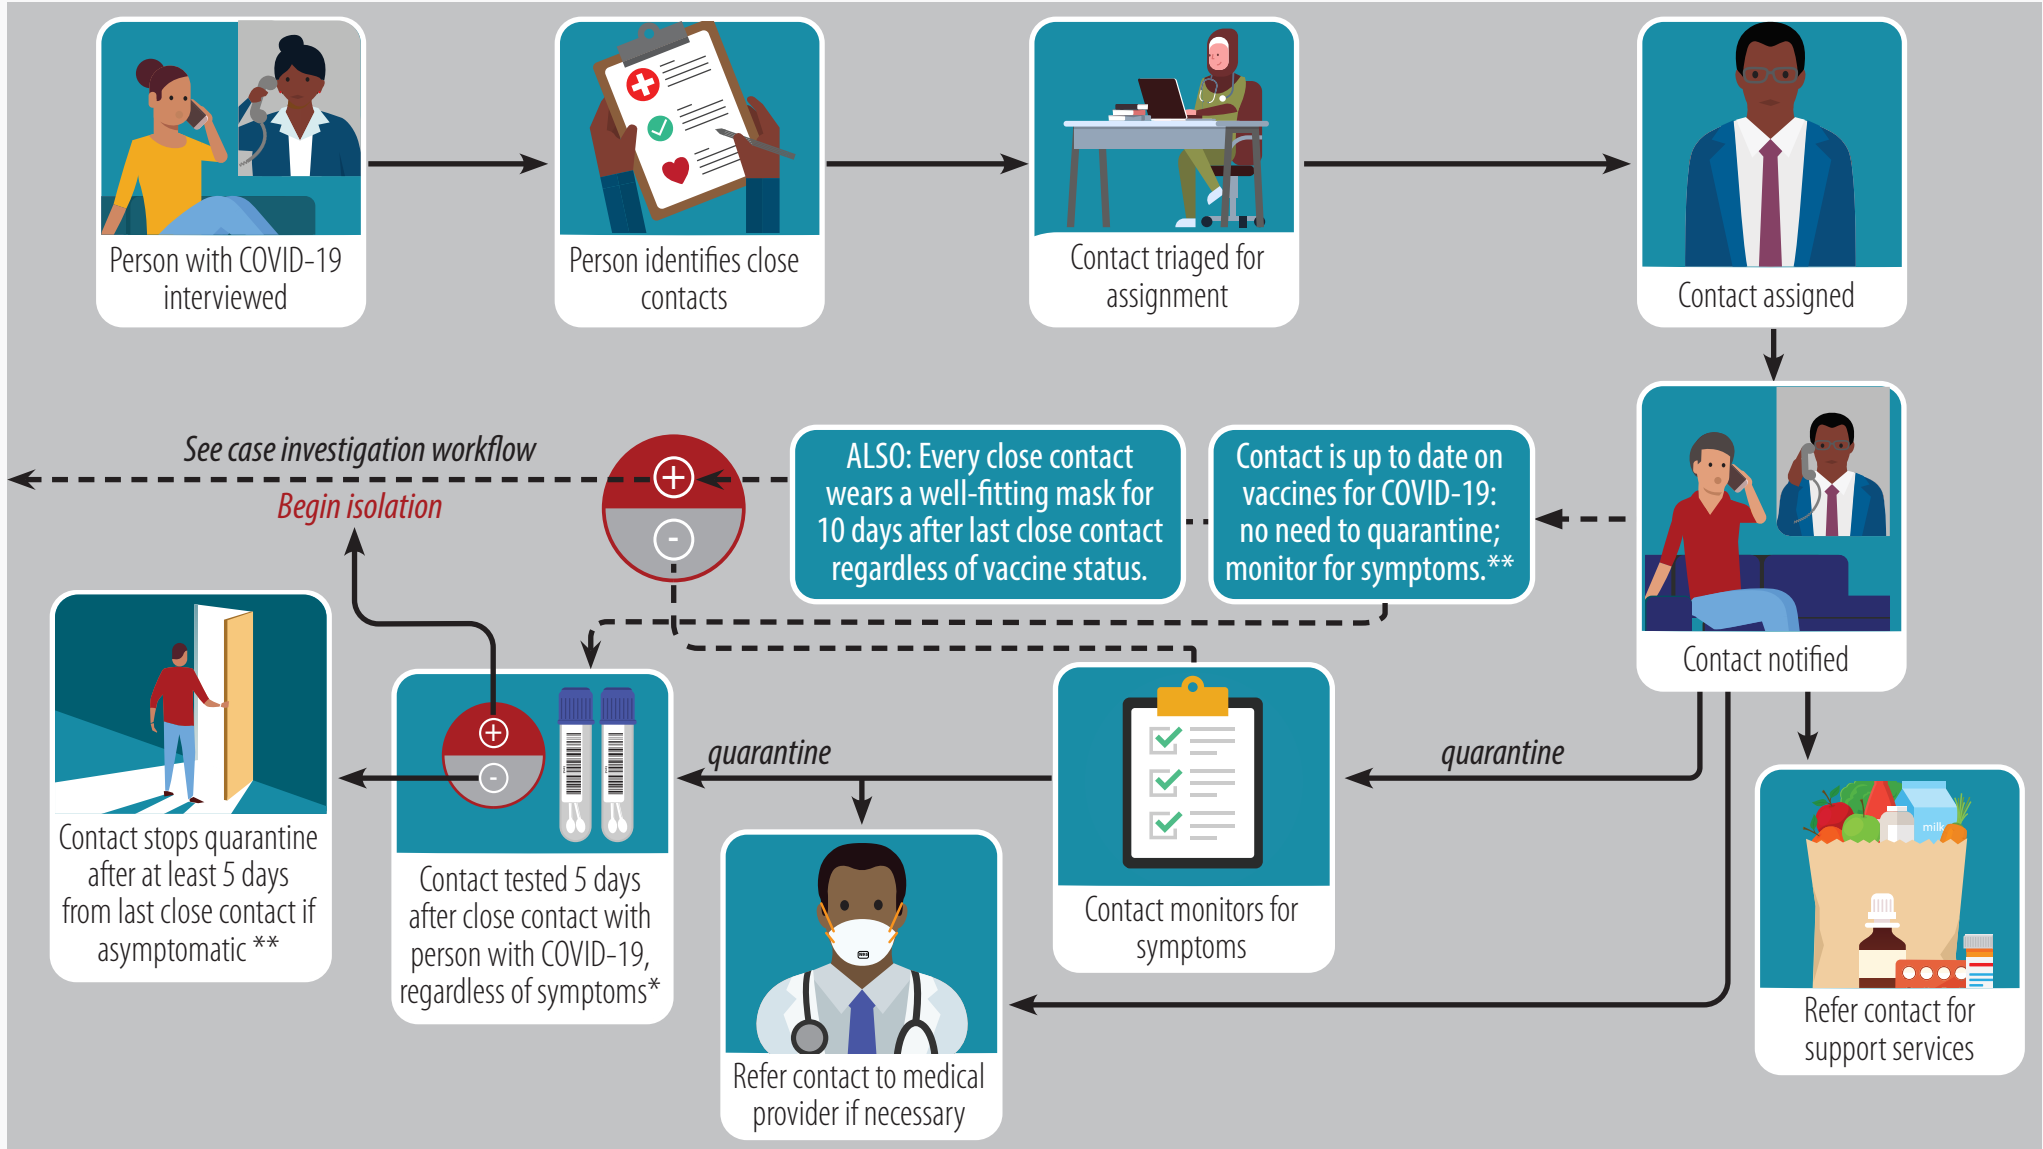

Accessible version https://www.cdc.gov/coronavirus/2019-ncov/php/contact-tracing/contact-tracing-plan/contact-tracing.html

Person with COVID-19 interviewed → Person identifies close contacts → Contact triaged for assignment → Contact assigned

See case investigation workflow

Begin isolation

ALSO: Every close contact wears a well-fitting mask for 10 days after last close contact regardless of vaccine status.

Contact is up to date on vaccines for COVID-19: no need to quarantine; monitor for symptoms.**

Contact notified

Contact stops quarantine after at least 5 days from last close contact if asymptomatic **

Contact tested 5 days after close contact with person with COVID-19, regardless of symptoms*

quarantine

Refer contact to medical provider if necessary

Contact monitors for symptoms

quarantine

Refer contact for support services

*If contact tests positive or develops COVID-19 symptoms, case investigation is necessary.

**Additional information on quarantine can be found here: https://www.cdc.gov/coronavirus/2019-ncov/if-you-are-sick/quarantine.html
In addition to persons who are up-to-date on COVID-19 vaccines, people who have had COVID-19 within the past 90 days and who are asymptomatic do not need to quarantine.

Information for people who are up to date on vaccines for for COVID-19: https://www.cdc.gov/coronavirus/2019-ncov/vaccines/fully-vaccinated.html
