

COVID-19 Stand-alone Vaccine Counseling-specific HCPCS Codes

As mentioned in State Health Official Letter #22-002 “Medicaid and CHIP Coverage of Stand-alone Vaccine Counseling”, CMS created these new HCPCS codes so that providers may use them to bill for stand-alone vaccine counseling. This includes COVID-19 stand-alone vaccine counseling codes for counseling provided to Medicaid and CHIP beneficiaries who are eligible both for Early and Periodic Screening, Diagnosis and Treatment (EPSDT) provisions and the COVID-19 vaccination coverage required under the American Rescue Plan. These codes can be used for stand-alone vaccine counseling provided in-person and/or via telehealth. The codes and descriptors are included below.

For more information on Medicaid and CHIP coverage of stand-alone vaccine counseling, please see the letter to states [here](#).
