Dr. Meg Oeller
Director, Office of Minor Use & Minor Species Animal Drug Development
FDA Center for Veterinary Medicine
Document Control Unit/HFV-199, MPN 2, E150
12225 Wilkins Ave.
Rockville, MD 20852

Dear Dr. Oeller:

Thank you for your letter (file number G-003664-G-0002-OT) earlier this year regarding the Office of Minor Use & Major Species Animal Drug Development's (OMUMS) determination that the following indication constitutes a minor use in a major species:

For the control of mortality caused by blackhead disease (histomoniasis) in flocks of turkeys where the disease has been diagnosed

Given the serious consequences of blackhead disease and lack of available treatments, the National Turkey Federation respectfully requests that OMUMS/CVM make the letter publicly available by posting it on CVM's website. We are hopeful that once others become aware of this determination, increased interest in product development may follow.

If you have any questions, please feel free to contact me at (410) 353-6032 or bethjohnson@fooddirectionsdc.com Thank you for your consideration.

Sincerely,

A handwritten signature in black ink that reads "Beth Johnson". The signature is written in a cursive style with a large, looped "B" and "J".

Beth Johnson
