

parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. Five comments were received in support of the action. One commenter had concerns that were not substantive to the establishment of Class E airspace. The concerns addressed the quality of the altimeter values reported by the Creswell Automated Weather Observing System (AWOS) and the potential for conflict with the visual flight rules (VFR) traffic pattern. The concerns regarding AWOS have been forwarded to the servicing System Support Center. The RNAV procedure at Hobby Field should only be used when the wind is favoring runway 16, so the VFR traffic pattern should shift to match.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11B, dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

**Availability and Summary of Documents for Incorporation by Reference**

This document amends FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

**The Rule**

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 establishes Class E airspace extending upward from 700 feet above the surface at Hobby Field, Creswell, OR, to accommodate new RNAV procedures at this airport for the safety and management of IFR operations.

**Regulatory Notices and Analyses**

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a

routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

**Environmental Review**

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

We are announcing the availability of a guidance for industry entitled “Questions and Answers Regarding Food Facility Registration (Seventh Edition).” This guidance provides updated information relating to the food facility registration requirements in the FD&C Act. We are issuing this guidance consistent with our good guidance practices regulation (21 CFR 10.115). The guidance represents the current thinking of FDA on this topic. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations. This guidance is not subject to Executive Order 12866.

In the **Federal Register** of December 27, 2016 (81 FR 95068), we made available a draft guidance for industry entitled “Questions and Answers Regarding Food Facility Registration (Seventh Edition)” and gave interested parties an opportunity to submit comments by March 27, 2017, for us to consider before beginning work on the final version of the guidance. We received numerous comments on the draft guidance and have modified the final guidance where appropriate. In

addition, we made editorial changes to improve clarity. The guidance announced in this notice finalizes the draft guidance dated December 2016.

FDA is also publishing elsewhere in this issue of the **Federal Register** notification of availability of a supplemental draft guidance document entitled “Supplemental Questions and Answers Regarding Food Facility Registration” that includes additional questions and answers to clarify our thinking about who should register in certain situations involving more than one possible registrant, such as a lessor and one or more lessees for an establishment. When the draft guidance is finalized, we intend to incorporate it into a future edition of the guidance document that is the subject of this notification.

##### II. Paperwork Reduction Act of 1995

This guidance refers to previously approved collections of information found in FDA regulations. These collections of information are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520). The collections of information in 21 CFR 1.230 through 1.235 and 21 CFR 1.245 have been approved under OMB control number 0910-0502.

##### III. Electronic Access

Persons with access to the internet may obtain the guidance at either <https://www.fda.gov/FoodGuidances> or <https://www.regulations.gov>. Use the FDA website listed in the previous sentence to find the most current version of the guidance.

Dated: August 14, 2018.
