Subject: SE Report SE0003297 from Republic Tobacco, L.P.

On October 2, 2013, I drafted a TPL memo for SE0003297 (OCB Organic Hemp Single Wide). The TPL memo recommends an SE order be issued for the new tobacco product that is subject of this SE Report. RADM Ashley concurred with this recommendation. However, an error in identifying the new tobacco product was discovered. The TPL memo (and other documents in the administrative file) identifies the new tobacco product as containing 50 papers, but the correct package size is 100 papers. The engineering review by Christopher Brown dated April 9, 2013, explains that the SE Report originally identified the package size as 50 papers but the applicant later clarified that the correct package size is 100 papers. The SE order letter for SE0003297 should identify the new tobacco product as follows:

New Tobacco Product	
Product Name	OCB Organic Hemp Single Wide
Package Size	100 papers
Package Type	Booklet
Product ID	UPC 0-86400-00030-7
