Misuse of Prescription Pain Medication Public Service Announcements**

**“Misuse”
Length: 20 Seconds**

Misuse of prescription pain relievers can kill you. People just like you are dropping pills at parties and dropping dead. They're not downing handfuls of pills either. With some prescription pain relievers, all it takes is one pill to end your life. Call 1-800-662-HELP for more information. That's 1-800-662-HELP.
