Misuse of Prescription Pain Medication Public Service Announcements**

**“Addiction”
Length: 30 Seconds**

Addiction, brain damage, even death. Yes, misuse of prescription pain relievers can kill you. If you, or someone you know, are abusing or are addicted to prescription medications, get professional help. Remember, the “buzz” takes your breath away, permanently. Call 1-800-662-HELP for more information. That’s 1-800-662-HELP.
