

FDA Staff Manual Guides, Volume I – Organizations and Functions

Food and Drug Administration

Office of Foods and Veterinary Medicine

Center for Veterinary Medicine

Office of Research

Effective: December 14, 2018

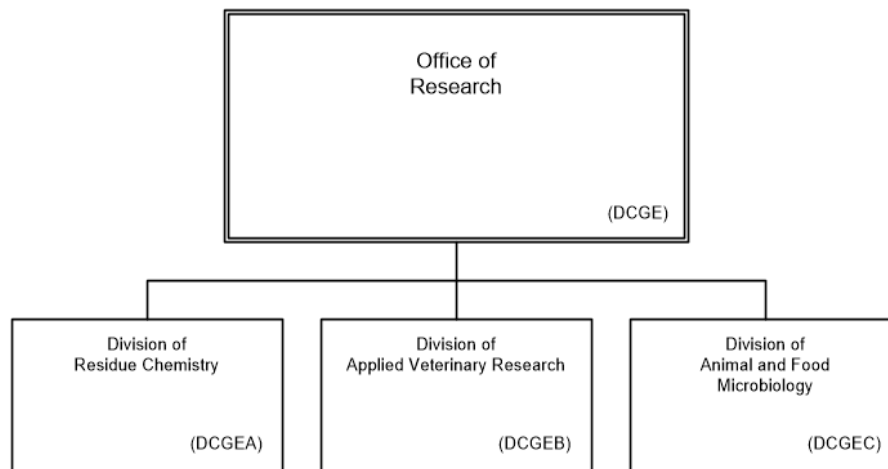

1. Office of Research (DCGE).

- A. Advises and assists the Center Director and other officials on research matters which affect Center policy direction and long-range goals.
- B. Provides focal point for all research activities in the Center, serves as the liaison for intramural and extramural research.
- C. Provides scientific review, guidance, and support for research activities (extramural research, training, and fellowship activities); serves as the Center focal point for pre-award coordination.
- D. Evaluates and reviews the adequacy of research resources; appraises the technical aspects and contributions of Center science programs.
- E. Initiates, manages, and reviews Center contracts, grants, cooperative agreements, and interagency agreements with regard to enhancing the Center research and science program activities.
- F. Evaluates and interprets results of scientific research; initiates and recommends action as appropriate to implement policy changes.

2. Authority and Effective Date

The functional statements for the Office of Research were approved by the Secretary of Health and Human Services and effective on December 14, 2018.
