

Addendum

November 21, 2011

Addendum to Report: Combined Hormonal Contraceptives (CHCs) and the Risk of Cardiovascular Disease Endpoints

Table 11a on page 50,

Table 11b on page 51

Table 11c on page 52

The X's that appear in the cells of these tables (Tables 11a, 11b and 11c) indicate that the data are too sparse to provide meaningful estimates. This is another way of saying "no estimates could be generated" for these variables.
