Misuse of Prescription Pain Medication Public Service Announcements**

**“Misusing”
Length: 20 Seconds**

Misusing prescription pain medication can result in addiction, brain damage, or even death. When abused, all drugs have a real potential for harm. All it takes is one pill to end your life. Call 1-800-662-HELP for more information on the misuse of prescription pain relievers. That's 1-800-662-HELP.
