This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM WE OBSERVED: $OBSERVATION\ 1$

There is a failure to thoroughly review any unexplained discrepancy and the failure of a batch or any of its components to meet any of its specifications whether or not the batch has been already distributed.

Specifically,

Deficiencies noted during review of Out-of-Specification (OOS) Investigations deemed invalid by the firm between January 2015 and October 2017 include the following, but not limited to:

(A) OOS Investigation number 05/OOS15004 was initiated on January 23, 2015 to probe the Assay and failures associated with results ranged from (b)(4) % to (b)(4) % against a specification limit of (b)(4) % to (b)(4) %. A similar range of passing and failing results were obtained during re-injection of the same sample vial and re-sonication of freshly prepared samples from the same (b)(4) % from the re-sonicated sample for passing results (b)(4) % from the re-sonicated sample for passing results during the initial analysis (b)(4) % and re-injection (b)(4) % additionally, you attributed the failure to sample preparation error by providing photographs of sample vials indicating the purported anomalous sample preparations. The photographs included in the investigation did not include a date stamp and your QA manager stated that copies of the photographs are not saved in electronic QA archives. Authenticity of

the supporting photographs could not be verified by the FDA investigators. You invalidated the initial results through re-testing and reported passing results for Assay and (b) (4)

(B) You attributed the root cause for a number of stability-related OOS investigations to ruptured/damaged septa during analyses. However, the photographs indicating the purported ruptured/damaged septa do not include a date stamp and your QA manager stated that copies of the photographs are not saved in electronic QA archives. Authenticity of the supporting photographs could not be verified by the FDA investigators. Ruptured or damaged Septa is purported to be root cause only for stability-related tests that were invalidated. You invalidated the initial results through re-testing and reported passing results during each of the following OOS investigations:

OBSERVATION 6

Appropriate controls are not exercised over computers or related systems to assure that changes in master production and control records or other records are instituted only by authorized personnel.

Specifically,

On November 6, 2017, we observed that a warehouse employee was able to access quality folder/documents as well as create/delete documents/ folders on Quality Department network drives. For example, the warehouse employee was able to access/delete documents and folders that included, but not limited to:

- IPQA Data Donot Delete
- Addendum to Operational Qualification Protocol Blister Packing Machine (^{(b) (4)}
- Qualifications
- (b) (4)
- other quality documents

If documents are deleted from any drives, documents are not moved to the recycling bin. Your IT Executive stated that "any files deleted from the server will be permanently flushed" and further stated that "the file will be permanently deleted from server with no traceability." Additionally, your firm does not have any written procedures to handle computer data integrity issues outside the Quality Laboratories.

OBSERVATION 7

Employees are not given training in the particular operations they perform as part of their function.

Specifically,

SEE REVERSE OF THIS PAGE	31	Jogy Georpe Investigation Styred By 2001823444 Date Styred 11-11-2017 18-03-50.	DATE ISSUED 11/11/2017
