

## Chapter 2: Personnel Qualifications and Training and

**Chapter 3: Health and Hygiene** 

(Subparts C and D)

### Chapter 2: Personnel Qualifications and Training Overview

- 1. Evaluating Personnel's Assigned Duties
- 2. Qualifications Necessary to Perform Assigned Duties
- Training Frequency
- 4. Easily Understandable Training
- 5. Minimum Training Requirements
- 6. Additional Training for Persons Who Conduct Harvest Activities
- 7. Food Safety Training for a Supervisor or Responsible Party
- 8. Supervision to Ensure Compliance
- 9. Training Records

### Evaluating Personnel's Assigned Duties and Supervision to Ensure Compliance

- 1. Evaluating Personnel's Assigned Duties
  - Recommend that you review all personnel's assigned duties and observe the performance of the duties
- 8. Supervision to Ensure Compliance with the Requirements of the Produce Safety Rule
  - Recommend that you evaluate your operations and ensure that you identified personnel to supervise or be responsible for each aspect of your operations that relates to a provision of the Produce Safety Rule
  - Should ensure that assigned personnel are aware of their role in recognizing and ensuring correction of deviations from your procedures and the rule requirements

### Qualifications Necessary to Perform Assigned Duties

#### 2. Qualifications Necessary to Perform Assigned Duties

- You should evaluate and determine whether personnel assigned to handle covered produce or food contact surfaces are qualified to perform their duties based on a combination of:
  - Education;
  - Training; and
  - Experience.
- Examples

### Training Frequency and Easily Understandable Training

- 3. Training Frequency Recommendations
  - Frequency
  - Timing
  - Examples
- 4. To be easily understandable, training should be:
  - Provided in the language personnel speak
  - Tailored to educational level of the personnel
  - Relate to assigned duties and provide examples
  - Designed to effectively deliver the content

### FDA

#### **Training Recommendations (Sections 5-7)**

- The training should help personnel:
  - understand how to perform their duties
  - understand how their actions can affect safety of covered produce and food contact surfaces
  - understand routes of contamination
- Training should include your food safety procedures
- Recommendations and Examples for:
  - Food hygiene and food safety
  - Health and personal hygiene
  - Standards in Subparts C-O
  - Persons who conduct harvest activities
- Supervisors or a Responsible Party

#### **Chapter 3: Health and Hygiene Overview**

1. Measures to Prevent III or Infected Persons from Contaminating Covered Produce

- 2. Hygienic Practices
- 3. Measures to Prevent Visitors from Contaminating Covered Produce and Food Contact Surfaces

### Measures to Prevent III or Infected Persons from Contaminating Covered Produce

- 1. Measures to Prevent III or Infected Persons from Contaminating Covered Produce
- Understanding applicable health conditions
- Self-identification of applicable health conditions
  - Should ensure personnel who could contaminate covered produce or food contact surfaces can identify applicable health conditions
  - Training requirements and recommendations
  - Recommendations to promote self-identification of applicable health conditions

## Measures to Prevent III or Infected Persons from Contaminating Covered Produce (continued)

- Role of supervisors in identifying applicable health conditions
  - Should ensure they are aware of their responsibilities
  - Should ensure they can recognize applicable health conditions
  - Should remind personnel to report any applicable health conditions
- Addressing reports of applicable health conditions
- Response to potential contamination of covered produce or food contact surfaces

#### **Hygienic Practices**

#### 2. Hygienic Practices

- Recommended steps to ensure personnel implement required hygienic practices
  - Ensure applicable personnel are aware of requirements and can identify, and correct or report unhygienic practices
  - Identify job duties in which personnel are likely to encounter potential sources of contamination
  - Ensure personnel are aware of procedures associated with minimum hygienic practices requirements
  - Ensure supervisors or responsible parties observe personnel,
     communicate about hygienic practices, and identify unhygienic practices that need to be addressed

### Hygienic Practices (continued)

#### 2. Hygienic Practices

- Personnel and hygienic practices recommendations:
  - Evaluate covered activities where covered produce and food contact surfaces are at risk of contamination
  - Ensure that all personnel use hygienic practices to the extent necessary, and understand how hygienic practices impact covered produce safety
- Role of supervisors in ensuring personnel follow hygienic practices
  - Should ensure that personnel follow hygienic practices
- Required hygienic practices recommendations and examples

## Measures to Prevent Visitors from Contaminating Covered Produce and Food Contact Surfaces

#### 3. Measures to Prevent Visitors from Contaminating Covered Produce and Food Contact Surfaces

- Visitor Awareness of Policies and Procedures
  - Recommended to evaluate the types of visitors on your farm and their interactions with covered produce and food contact surfaces to determine appropriate approaches
  - Examples
- Toilet and Hand-washing Facilities
  - Should inform visitors of the location of toilet and handwashing facilities available to them
