Re: The National Contact Lens Enforcement Petition

Dear Ms. Butler:

Thank you for your assistance on the phone in discussing the proper way for me to submit my petition to the FDA. As we discussed, I would like for my petition to be added to the current contact lens docket # 03D-0118.

But I would also like for a new docket to be opened regarding the National Contact Lens Enforcement Petition (NCLEP). I think the NCLEP petition deserves its own docket because it deals with the regulation of ALL contact lenses. The current docket, however, only discusses cosmetic contact lenses.

As you suggested, I have attached on the second page of this fax an environmental impact statement and the certification for my petition. I appreciate your help with this matter. Please contact me at anytime if there is anything else my petition should require.

Sincerely,

Tim Milburn, O.D.
