INGREDIENTS

Ground Corn, Dehulled Soybean Meal, Rolled Oats, Dried Whey Product, Soybean Hulls, Sodium Bentonite, Animal Fat, BHT (A Preservative), Maltodextrin, Monocalcium Phosphate, Lignin Sulfonate, Calcium Carbonate, Animal Plasma, Fish Meal, Salt, Hydrolyzed vegetable oil, Mono and diglycerides of edible fat-forming acids, Silicon dioxide, Glycerin, Ammonium formate, Formic acid, Propionic acid (preservative), Acetic acid, Benzoic acid, Sorbic acid (preservative), Citric acid, Propylene glycol, Zinc Oxide, Extracted Citric Acid Presscake, Corn Syrup Refinery Insolubles, Sucrose, Choline Chloride, Calcium Propionate (A Preservative), Basic Copper Chloride, Ferrous Sulfate, Zinc Sulfate, Manganese Sulfate, Calcium Iodate, L-Lysine, Dried *Trichoderma reesei* fermentation product, Dried *Bacillus Licheniformis* Fermentation Product, Dried *Bacillus Subtilis* Fermentation Product, Selenium Yeast, Vitamin E Supplement, Calcium Pantothenate, Niacin Supplement, Biotin, Vitamin A Supplement, Menadione Nicotinamide Bisulfite, Pyridoxine Hydrochloride, Riboflavin Supplement, Folic Acid, Vitamin B12 Supplement, Vitamin D3 Supplement, L-Threonine, Natural and Artificial Flavors, Saccharin Sodium, DL Methionine, Chromium Propionate, Dehydrated *Pichia Pastoris* Fermentation Extract.

FEEDING DIRECTIONS

MoorMan's ShowTec Sale Burst w/DF is a complete feed specifically formulated for pigs weighing 35 to 75 pounds. Feed continuously as sole ration on premises with a history of swine dysentery but where signs of disease have not yet occurred or following approved treatment of disease. Then they should be changed to an approved ShowTec ration for pigs of this weight. Provide clean, fresh water at all times.

WARNING: Withdraw 2 days prior to slaughter.

CAUTION: Do not feed to animals other than swine. The effects of tiamulin on swine reproductive performance, pregnancy and lactation have not been determined. Use as the sole source of tiamulin. Swine being treated with tiamulin should not have access to feeds containing polyether ionophores (e.g., monensin, lasalocid, semduramicin, narasin, and salinomycin) as adverse reactions may occur. If signs of toxicity occur, discontinue use of medicated feed.

Protect from excessive temperatures that exceed 104°F (40°C). Do not store at warm temperatures, 104°F (40°C), for more than 7 days.

NOTICE: Do not use in any finished feed (supplement, concentrate or complete feed) containing in excess of 2% bentonite.

FEEDING DIRECTIONS

MoorMan's ShowTec Burst Starter w/DF is a complete feed specifically formulated for pigs weighing 15 to 50 pounds. Feed at the rate of 5% of body weight to provide 10 mgs of chlortetracycline per pound of body weight daily. For example, feed at the rate of 1.0 lb per head per day to pigs weighing 20 lbs. Feed continuously as the sole ration for 14 days. Then they should be changed to an approved ShowTec ration for pigs of this weight. Provide clean, fresh water at all times.

WARNING: Withdraw 2 days prior to slaughter.

CAUTION: Do not feed to animals other than swine. The effects of tiamulin on swine reproductive performance, pregnancy and lactation have not been determined. Use as the only source of chlortetracycline and tiamulin. Swine being treated with tiamulin should not have access to feeds containing polyether ionophores (e.g., monensin, lasalocid, semduramicin, narasin, and salinomycin) as adverse reactions may occur. If signs of toxicity occur, discontinue use of medicated feed.

Protect from excessive temperatures that exceed 104°F (40°C). Do not store at warm temperatures, 104°F (40°C), for more than 7 days.

INSTRUCTIONS FOR FEEDING

Feed 0.4 to 1.0 lb of SENIORGLO® for every 100 lb of body weight (4.4 to 11 lb per 1100 lb horse) along with at least 2.0 lb of high-quality forage for every 100 lb bodyweight. Divide into at least two meals per day. Do not feed more than 0.4 lb of SENIORGLO® per 100 lb bodyweight in a single meal. Adjust feeding rate for each individual horse to maintain the desired body condition. Do not exceed recommended feeding rate. If your horse needs less than 0.4 lb per 100 lb bodyweight of SENIORGLO® to maintain condition, provide a GROSTRONG® Vitamin and Mineral product according to label directions. Always provide clean, palatable water and salt on a free-choice basis. Any feed changes should be made gradually over 7 to 10 days. Consult with a veterinarian or ADM nutritionist for a recommended diet. For more information, visit www.ADMequine.com.

CAUTION: Consumption of this product by sheep and goats may result in copper toxicity. Follow label directions. Feeding added selenium at levels in excess of 0.3 ppm in the total diet is prohibited.

FEEDING DIRECTIONS

Motivate 12-15 is a complete feed specifically formulated for starting pigs. Feed continuously as the sole ration to pigs weighing 12 to 15 lbs with a history of swine dysentery but where signs of disease have not yet occurred, or following approved treatment of disease. Provide clean, fresh water at all times.

WARNING: Withdraw 2 days prior to slaughter.

CAUTION: Do not feed to animals other than swine. The effects of tiamulin on swine reproductive performance, pregnancy and lactation have not been determined. Use as the only source of tiamulin. Swine being treated with tiamulin should not have access to feeds containing polyether ionophores (e.g., monensin, lasalocid, semduramicin, narasin, and salinomycin) as adverse reactions may occur. If signs of toxicity occur, discontinue use of medicated feed.

Protect from excessive temperatures that exceed 104° F (40° C). Do not store at warm temperatures, 104° F (40° C), for more than 7 days.

KEEP OUT OF REACH OF CHILDREN

CAUTION

USE AND MIXING DIRECTIONS

STORAGE AND DISPOSAL: Do not contaminate water or food by storage or disposal.

STORAGE: Store in dry area. Do not contaminate with pesticides or fertilizer.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

MIXING AND FEEDING DIRECTIONS

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product only prevents emergence of adult horn flies from the manure of treated cattle. Begin use in the spring before horn flies appear on cattle and continue feeding until cold weather restricts horn fly activity. Introduction of the product when significant numbers of adult flies are present may require the use of adulticide sprays or dusts.

Feed at the rate of 0.01785 pound per 100 pounds bodyweight to cattle weighing over 700 pounds to provide 0.5 mg chlortetracycline per pound of bodyweight per day and 34 mg of methoprene per 100 lb of bodyweight per month. For example, mix and feed at the rate of 0.25 lb per head per day to cattle weighing 1400 lb to provide 700 mg chlortetracycline per head per day and 34 mg of methoprene per 100 lb of bodyweight per month. This product is not designed for free choice feeding. Provide clean fresh water at all times.

WARNING: Zero-Day withdrawal period. A withdrawal period has not been established for this product in pre-ruminating calves. Do not use in calves to be processed for veal.

CAUTION: Consumption of this product by sheep and goats may result in copper toxicity. Follow label directions. The addition to feed of higher levels of this premix containing selenium is not permitted
