Comment number	Commenter name	Commenter organization	Comment(s)	Page number(s)	Section(s)	Current content	Suggested Content/Change	Other suggested improvements	Comment Category	Submission Date
SVAP_01	Jacqueline Parker	Federal Electronic Health Record Modernization (FEHDM) Program Office	I read that sentence to mean terminology standards such as SNOMED, LOINC and NDCM are not included. The standards listed in this document are primarily messaging and configuration standards. We do not have any comments to add.	1		"It does not include any minimum vocabulary standards as health IT" can continue to be certified or upgraded to newer version(s) of identified minimum standard code sets, unless newer version(s) are explicitly prohibited by the Secretary."			Substantive	9/30/2021
SVAP_02	Mimi Fon	U.S. Department of Veteran Affairs (OEHM TIO) Interoperability	Suggest spelling out DIC	1	1st paragraph		Suggest spelling out DIC		Administrative	9/30/2021
SVAP_03	Mimi Fon	U.S. Department of Veteran Affairs (OEHM TIO) Interoperability	Suggest clarifying what constitutes as a "certified health IT developer"	1	2nd paragraph		Suggest clarifying what constitutes as a "certified health IT developer"		Administrative	9/30/2021
SVAP_04	Mimi Fon	U.S. Department of Veteran Affairs (OEHM TIO) Interoperability	Suggest including footnote/link on where to find the "minimum vocabulary standards" not included in the table, as mentioned in the paragraph	2	5th paragraph		Suggest including footnote/link on where to find the "minimum vocabulary standards" not included in the table, as mentioned in the paragraph		Administrative	9/30/2021
SVAP_05	Heide Rippen	U.S. Department of Veteran Affairs Chief Interoperability and Veteran Access Officer Office of Information and Technology	Some themes relevant to security in the SVAP (security gaps), HL7 FHIR SMART guidance.	4,5,6	HL7 Implementation Guide for CDA Release 2	N/A	None	None	Substantive	9/30/2021
