## Balcony & Roof Repair

Monday

**April 15**

Repairs will begin on the fourth floor balconies and roof of the building.

**April 15 - May 31**

Approximate project timeline.

**April 15 - May 3**

The crane will tentatively be in operation starting on the east side and moving clockwise around the building. During that time, parking will be limited and gate access to neighboring businesses will be closed if within fall zone.

**Crane Fall Zone**

The zone (red circles at left) where it is unsafe for people and vehicles to be during crane operation.
